# Ag Microbes<sup>®</sup>

## NATURAL BIOLOGICALS THAT WORK!

- *AgMicrobes is a convenient wettable powder containing multiple strains of highly concentrated (4 billion CFU's/per gram) beneficial bacteria.*
- *AgMicrobes may be applied with fertilizers, insecticides, and fungicides.*
- *AgMicrobes is non-GMO, non-synthetic bacteria isolated from soil - not genetically altered. AgMicrobes is designated GRAS (Generally Recognized As Safe)*
- *AgMicrobes wettable powder may be used dry as a seed treatment or broadcast as a liquid*

### SUGGESTED APPLICATION RATES

#### SEED TREATMENT (Dry Powder)

- 1-3oz. per/acre: Use enough powder to thoroughly cover seeds. Use at planting for any row crops. Use at planting for any drilled cereal crops.
- Apply powder dry with any broadcast fertilizers.
- 1-2oz. per/acre: Apply as seed treatment when establishing or re-seeding hay ground or pasture.

#### LIQUID

- 4oz. per/acre broadcast: Mix with 10 gal. of water - may be used with pesticides and liquid fertilizers
- 1.5 to 2oz. per/acre: Mix wettable powder with any liquid starter fertilizer.
- 4oz. per/acre: Mix wettable powder with any irrigation application.
